

VINAY SHANKAR GOKA

+91-8523873214 | gvinayshankar@gmail.com

OBJECTIVE

Computer Science undergraduate with strong proficiency in Java backend development, distributed systems, and scalable application design. Experienced in building transactional backend services using Spring Boot, implementing concurrency control with Redis, and ensuring data consistency. Seeking to contribute to backend engineering teams while developing high-performance, scalable software systems.

ACHIEVEMENTS

- Secured State Rank 6 in Srinivasa Ramanujan Mathematics Olympiad (2018)

PROJECTS

Kalaa Setu : Folk Artist Booking Platform

- Developed backend services using Spring Boot to manage artist profiles and booking workflows
- Implemented scalable CRUD operations ensuring efficient and reliable data management
- Integrated AWS S3 for scalable and secure media storage
- Integrated OpenStreetMap API for location-based artist discovery
- Integrated Razorpay payment gateway for secure transaction processing

Instant Book : Real-time Distributed Seat Allocation System

- Built backend services using Spring Boot to support real-time seat allocation
- Implemented Redis-based distributed locking to prevent concurrent booking conflicts
- Designed ACID-compliant transactional workflows ensuring data consistency
- Developed QR-based automated ticket verification system
- Integrated secure payment workflows for reliable booking transactions

TECHNICAL SKILLS

Programming Languages: Java, Python, C

Backend Development: Spring Boot, REST APIs, Distributed Systems

Core Computer Science: Data Structures and Algorithms, Operating Systems, DBMS, Object Oriented Programming

Databases: MySQL, Redis

Tools: Git, GitHub, Docker, Kubernetes, AWS S3

EDUCATION

Bachelor of Technology in Computer Science and Engineering

Rajiv Gandhi University of Knowledge Technologies, Basar

CGPA: 8.6

Pre-University Course

Rajiv Gandhi University of Knowledge Technologies, Basar

CGPA: 9.8

CERTIFICATIONS

- NPTEL Certification in Programming in Java (2025)
